

CHULA VISTA YOUTH SPORTS COUNCIL

FIELD ALLOCATION

FALL / WINTER

August 1, 2011 – January 31, 2012

**Approved
July 14, 2011**

BALL FIELD MANAGEMENT WHAT I CAN DO TO HELP

1. Prior to each practice evaluate the field, wear areas are very noticeable. Schedule your practice to avoid these areas.
2. **Rotate the areas where warm up and practice drills are conducted, repeated heavy use in one area puts added stress on the turf. Do this throughout your practice.**
3. Soccer goals, during practice move the goal around so one area is not under constant pressure.
4. Game fields', moving your field around helps reduce the amount of wear in high use areas of the field. If you scale down the playing field by a few yards on the length and width of the field you have more flexibility in the movement of the field. Larger fields are desirable but when the fields begin to decline, give some thought to what can be done to help. Is it worth it to have a good field to play on by reducing the field size by a few yards?
5. After rain extra field evaluation is necessary, the City will post on their website which fields are closed. League representatives are also notified about closed fields. Due to the large number of fields it is often necessary for the leagues and team managers to make the decision on the condition of a field. Cancel your practice or game if the field is wet. Some fields are dry but isolated areas can still be very wet and subject to damage if played on, look for these areas and adjust your practice accordingly.
6. Report areas that appear to be soaked even though there has been no rain, there could be an irrigation problem. Notify your league, the City works very close with league representatives and your league representative will notify the City.
7. Practice only on fields that have been allocated to you by your league. The Youth Sports Council has guidelines that limit the number of teams that can practice on a field; too many teams practicing on a field puts added stress on the field.
8. League presidents, during the field allocation meeting request only what you need to meet the needs of your league.
9. **All fields are under monthly evaluation. Any field showing excessive wear may be closed for the remainder of the fall allocation. Please pass on to your coaches the importance of turf management. Take care of what you have been allocated.**

To Check City of Chula Vista field conditions, please pass this information on to coaches, parents etc.

www.chulavistaca.gov/goto/fieldconditions

A joint effort by all users is required to manage the fields. Working together is a step in the right direction. There will be times when fields are closed, use needs to be managed. The Parks in Chula Vista are for everyone to enjoy. Closed fields are of no use to anyone. Controlled use of fields and growth of Youth and Adult leagues needs to occur. Your help in this matter is needed and appreciated.

Thank you for your assistance
Public Works, Parks Division
Recreation Department
